

## **Primary school in Suldal**

Primary school in Suldal offer education to children from 1 - 10 grade, and also adults who are entitled to primary education.

Our purpose is to offer a good education to schools which constantly wish to develop its pedagogic practice, so that the pupils receive the best offer possible, adjusted to good learning.

Education in school is based on the education project, called "Kunnskapsløftet". This proposition is in addition regulated by the law of education and directions to the law of education.

### **Primary schools in Suldal:**

- Jelsa oppvekstsenter and Vanvik oppvekstsenter. This centers has a kindergarten, primary school (1-7grade) and day care facilities for schoolchildren after school.
- Erfjord primary school (1-7grade), Marvik primary school (1-7grade), and Vinjar primary school (1-7grade). Offer day care facilities for schoolchildren after school.

### **Comprehensive schools:**

- Sand comprehensive school (1-10grade) and Nesflaten comprehensive school (1-10grade). Offer day care facilities for schoolchildren after school.

### **Adult education**

Suldal adult education center has an offer to adult student who need primary learning or special pedagogic learning. The center give a special offer for students who need to learn Norwegian.

### **Educational and psychological counselling service (PPT).**

This business works with making a survey of and explanation of children who have certain needs for adjusted education. In order to give the best offer, this work is done in close connection with the schools.

### **Counsellor**

Suldal has a counsellor who works with school development and coordination of schools in Strand. The counsellor works together with the schools, educational and psychological counselling service and other businesses in Strand to give the best possible offer to each pupil.

The councellor is the one, who on behalf of the Chief municipal executive, is responsible for the schools in Suldal.
